Amit Prajapati (Group Leader)

Amisha Karia

DhruvKumar Patel

Lavina Budhwani

Guide:

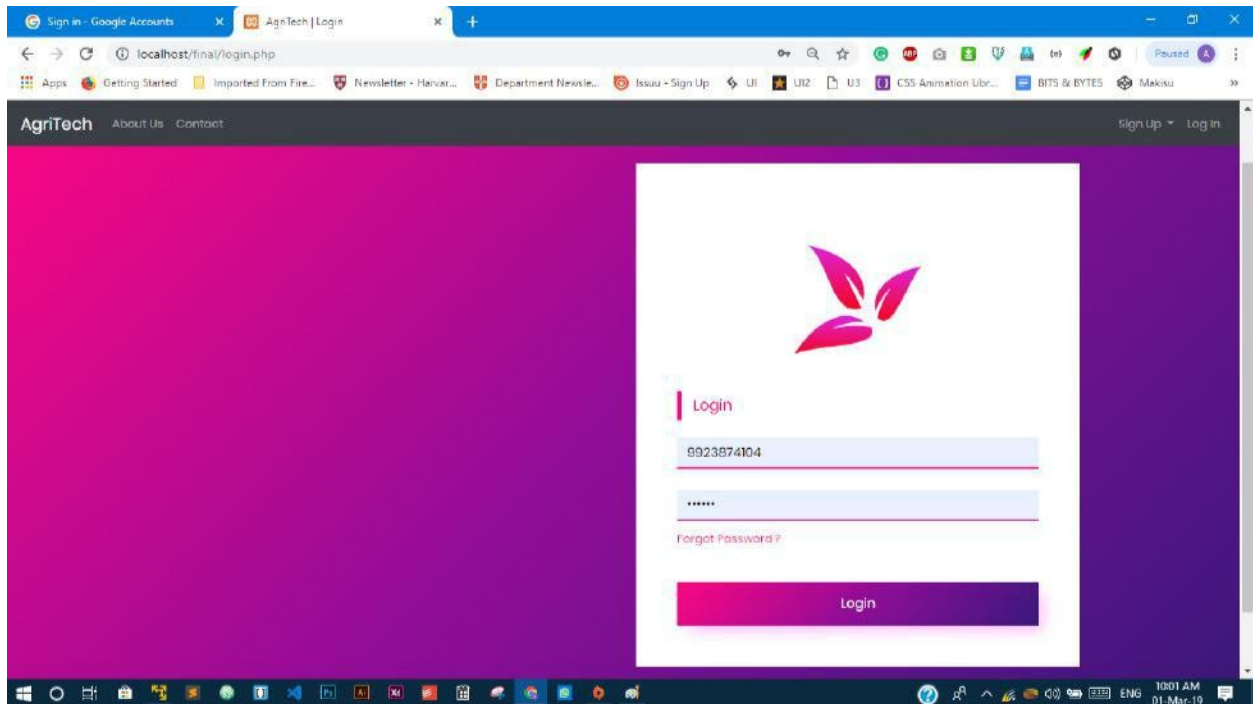

Ms. Rujata Chaudhari

Mr. Vinayak Narkar

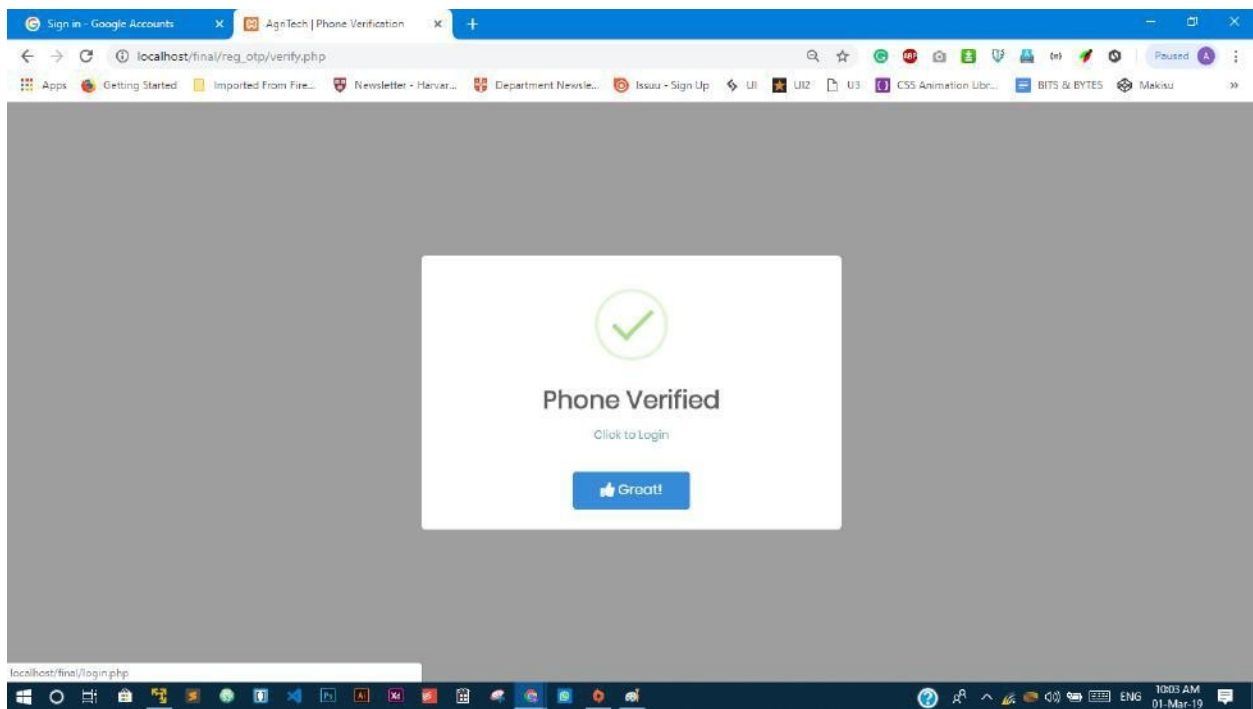

Co Guide:

Prof. Nahid Shaikh

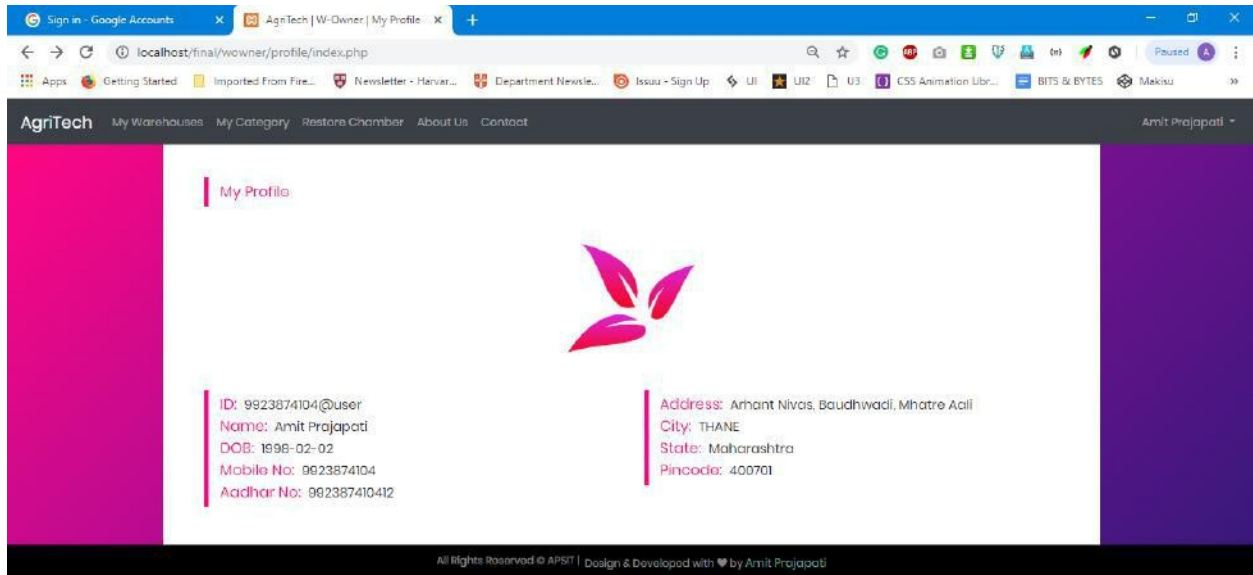

1)Login interface for Farmer and W-Owner

2)We are done with OTP verification and below is the screenshot for the same.

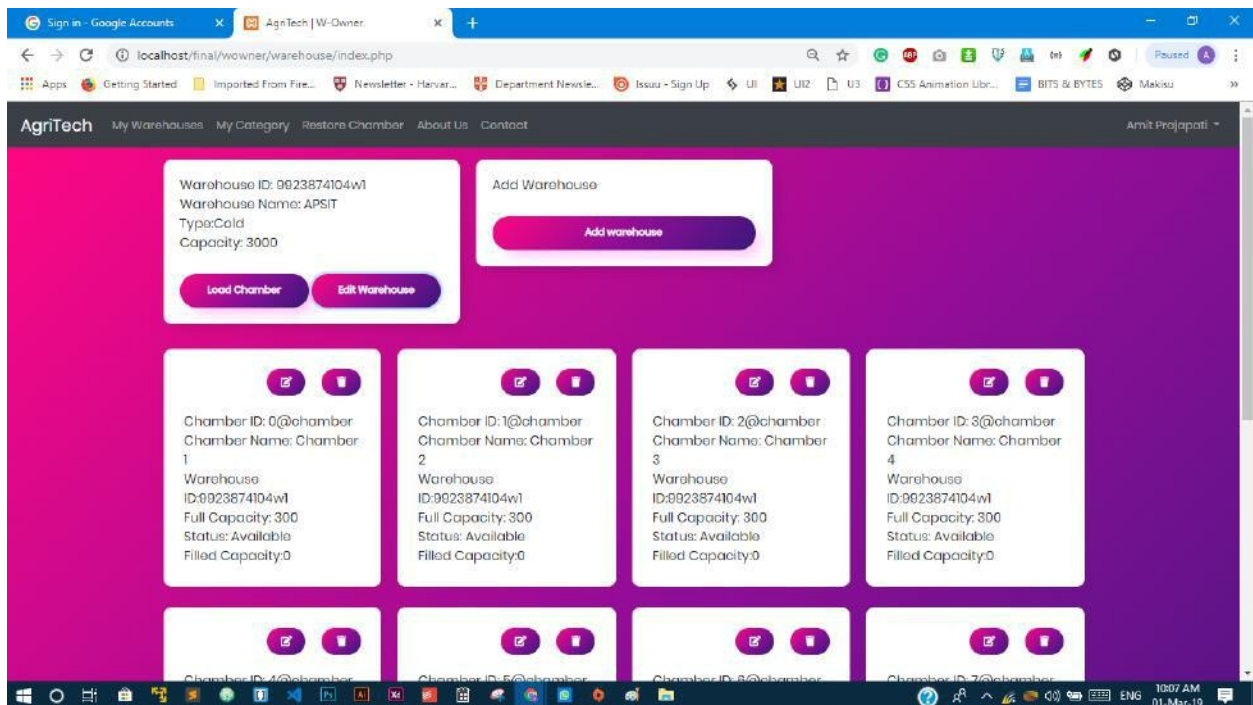

3)Below is the interface of the Warehouse owner once he is done with the updation of his profile.

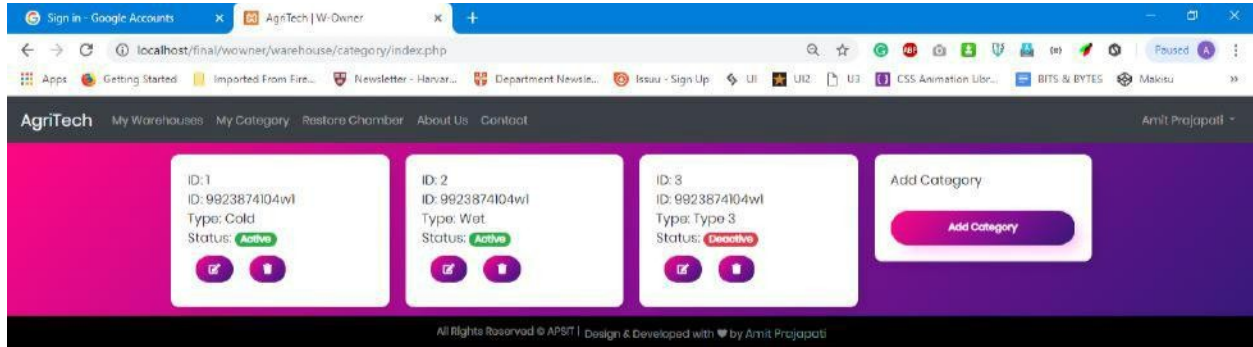

4)Below snippet shows the number of chambers in the particular warehouse.

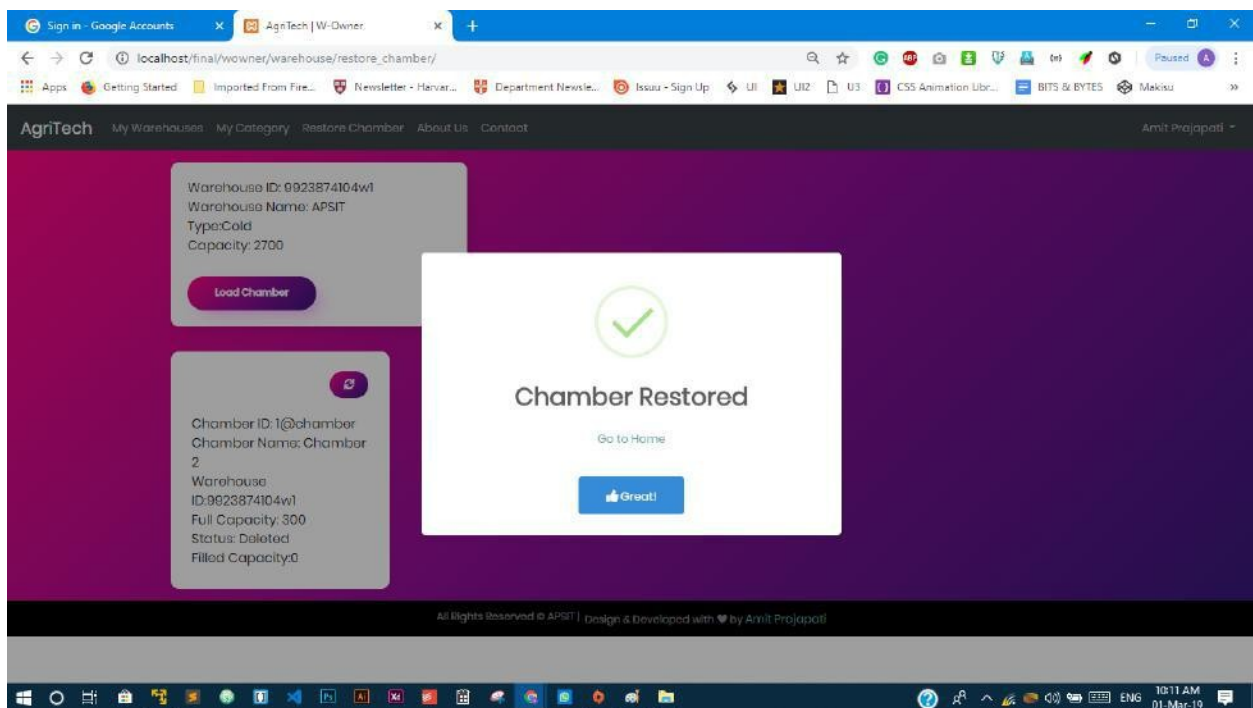

Chambers have the provision of editing and deleting.

5)Below is the categorization of the warehouse storage types. I.e cold,wet and dry.

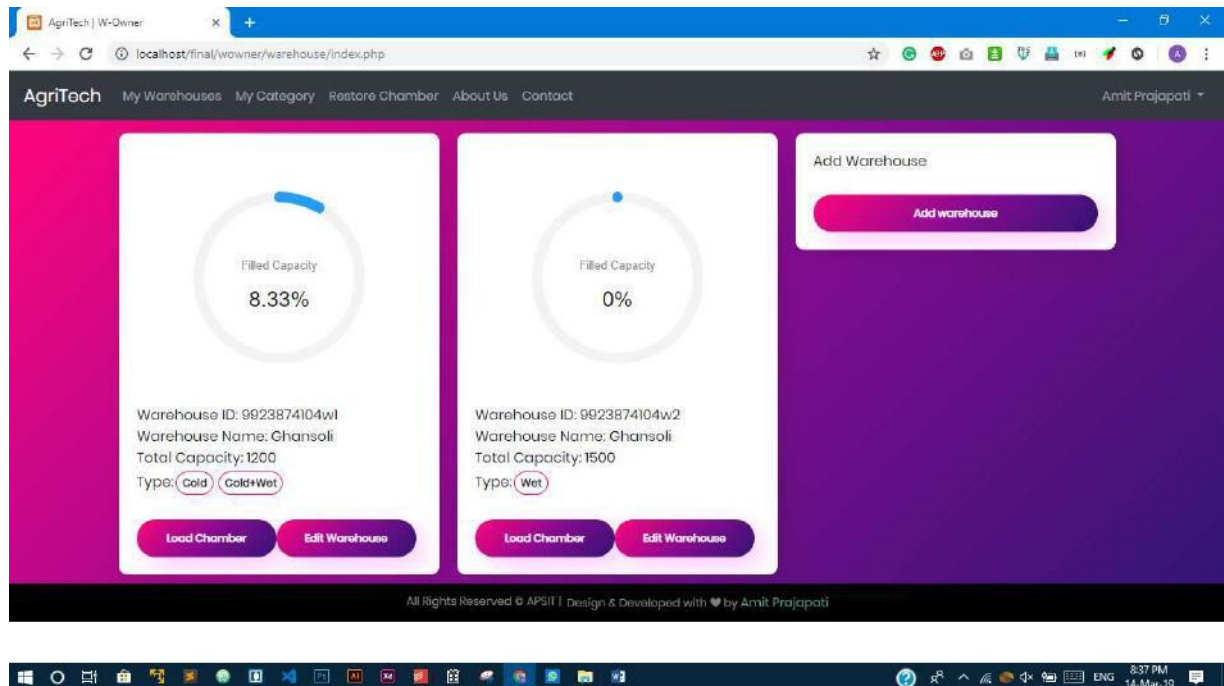

6)If we have deleted the chamber in the warehouse, and if warehouse owner want to restore it back then he has the provision of it and the snippet for the same is below-

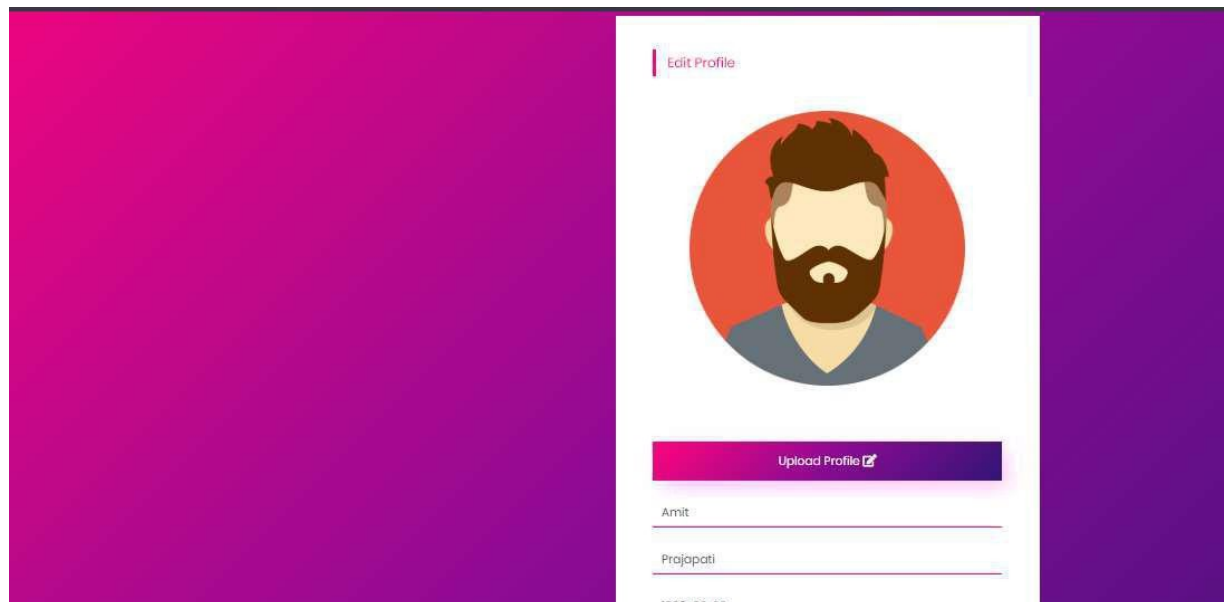

Improvement in the Dashboard:

We have added the Visual Component in the Warehouse and its chambers. So that it can easily understand the information about the status of its chambers.

Added the functionality of the uploading the profile and reset password.
